

Inventory Blowout Sale

Revolutionary product that meets OSHA/ANSI A92.2
Standard pricing drop! Dri Lightning®

Due to excess inventory and economic situations we are dropping our prices dramatically to allow us to clear out our inventory and give our customers the opportunity to cash in on a **one time drastic** cut in pricing. For those of you who were toying with the idea of purchasing a kit with a pair of conductive socks but felt the price was too high for a NEW industry product, here is your chance to try us out.

Just give us a call at 1-800-730-0525, or send an e:mail to drilightning1@windstream.net, or check out our web page www.drilightning.com to see what we can do for you in 2008.

Basic kit price DLKIT *slashed*; was \$1,643.70 – now \$986.22

Conductive socks sold separately.

Limited quantities available on all items.

Remember, our product is covered by a Limited Life-time Warranty
